Index to TECHNICAL PAPER ABSTRACTS

58-111 The effect of moisture on weight-volume relationships of small grain—Lorenzen, Robert T.	416	berberger, Leon F.	35
58-308 Cooled engines for agricultural applications—Lohmann, F. W.	35	58-507 Effect of misalignment on capacity of tile flowing full—Johnson, H. P.	169
58-340 The grieswalder pipe-laying machine and its operation—Janert, H., and translated by Busch, C., and Boersma, L.	109	58-508 The effect of crack width at tile joints on soil movement into drain tile lines—Jones, Benjamin A., Jr.	168
58-341 Use of strain gages in agriculture—Lauderdale, Gerald.	93	58-511 Nitrogen vaporization loss in sprinkler irrigation—Koch, Kenneth A.	345
58-342 Soil compaction by traffic—Gill, William R.	345	58-513 Irrigation water management for grain sorghum—Jensen, M. E., and Sletten, W. H.	345
58-343 Some considerations in grounding and lightning protection of secondary services and related equipment—Harris, Marlin	416		
58-500 Minimum tillage—its effect on soil physical properties and crop responses—Swamy Rao, A. A., Hay, R. C., and Bate-man, H. P.	35		
58-501 Water intake rates of shelby-grundy soils from hydrograph analyses—Jamison, V. C., and Thornton, J. F.	35		
58-503 Streambank stabilization—Sil-			

- 58-514 Spray characteristics of water from three converging sprinkler nozzles — Langa, John M., and Davis, John R. 109
- 58-517 Some sanitary engineering problems relating to water management in agriculture — Holtje, Ralph H. 109
- 58-518 Infiltration estimates based upon vegetation and the soil profile — Holtan, H. N. 168
- 58-519 Evaporation losses from standard non-recording rain gages—Norum, Edward M., and Larson, Curtis L. 168
- 58-609 Summary of new chemicals and application techniques for southern crops—Wooten, O. B. 35
- 58-610 New machines and application techniques for northern farms—Gunkel, Wesley W. 35
- 58-612 Progress in aircraft application research in the United States and abroad—Akesson, Norman B., and Yates, Wesley E. 35
- 58-613 Application of soil fumigants—Feichtmeir, E. F., and Adams, Merrill L. 93
- 58-615 The teflon-covered moldboard plow — Tribble, Roy T. 345
- 58-616 Results of research on plowplant equipment designed for corn production—Hansen, C. M., Robertson, L. S., and Grigsby, B. 168
- 58-619 Minimum tillage in Illinois — Bowers, Wendell and Bateman, H. P. 168
- 58-701 Grain ventilation and drying patterns — Ives, Norton C., Hukill, W. V., and Saul, R. A. 35
- 58-703 Liquid manure—a trend in the midwest — Jede, D. G. 35
- 58-710 Environmental studies with early-weaned pigs — Muehling, A. J., and Jensen, A. H. 169
- 58-712 A litter-filter ventilation system —Roller, Warren L. 93
- 58-716 2400 hogs a year under confinement — Powell, Albert E. 168
- 58-800 Research on electro-reclamation of saline-alkali soils — Gibbs, Harold J. 35
- 58-801 A radiation sensitive brooder control — White, Gerald M., and Taylor, John G. 169
- 58-802 Solving water quality problems on the farm—Klum, George H. 568
- 58-806 Factors affecting the pelleting of hay — Butler, J. L., and McColly, H. F. 169
- 58-818 Conditioning, handling and storing seed cotton prior to ginning — Luscombe, James A. 109
- 59-100 Soil deformation and compaction during piston sinkage — Soehne, Walter H., Chancellor, W. J., and Schmidt, Roy H. 762
- 59-102 Compaction and slippage effects of forage harvesting machinery — Boyd, M. M., and Kleis, R. W. 762
- 59-103 Compaction as viewed from the farm — Stapleton, Herbert 762
- 59-105 The plateau profile planter — Porterfield, J. G., Batchelder, David G., and Schroeder, E. W. 762
- 59-106 Similitude in studies of tillage implement forces — McLeod, H. E. 762
- 59-107 Objective analysis motivates advanced manure spreader design — Neuhoff, Alfred L. 762
- 59-108 Pressure distribution between a smooth tire and soil — Vandenberg, G. E., and Gill, W. R. 762
- 59-110 Tractive characteristics — Reed, I. F., and Forrest, P. J. 762
- 59-111 Operating characteristics — Thaden, T. J. 762
- 59-112 Durability characteristics — Wann, R. L. 762
- 59-114 Frost protection by wind machines and heaters — Brooks, F. A., Leonard, A. S., Crawford, T. V., and Schultz, H. B. 618
- 59-117 New developments in fruit harvesting and handling in the pacific northwest — McBirney, S. W. 568
- 59-118 Progress in mechanizing citrus fruit harvesting in Florida — Coppock, Glenn E., and Jutras, Pierre J. 762
- 59-119 Safe and efficient fertilizer placement — Nelson, W. L. 762
- 59-120 Fertilizer placement for small grain — Hansen, C. M., Robertson, L. S., and Dudley, R. F. 762
- 59-121 Deep tillage and fertilizer placement in Georgia — Rice, C. E., and Norris, H. M. 762
- 59-123 The need of precision agricultural equipment for the canning industry—Mahoney, C. H. 416
- 59-124 Physical removal of radioactive surface contamination from agricultural land, a progress report — Menzel, R. L., and James, Paul 762
- 59-126 Optimizing farm tractor design and use — An approach — Pfundstein, K. L. 762
- 59-127 Cost and return analysis of crop production machinery size — Link, D. A., and Barnes, K. K. 569
- 59-129 Drying rate and field loss comparisons of hay harvesting methods — Boyd, Morton M. 618
- 59-132 Curing rates, field losses, and feeding response with crimped, rolled, and untreated alfalfa hay — Kepner, R. A., Goss, J. R., Meyer, J. H., and Jones, L. G. 618
- 59-136 Mechanizing the peanut crop in Georgia — Tillage through harvesting and curing — Shepherd, James L. 762
- 59-137 Machinery and methods of producing and harvesting the Virginia type peanut—Duke, G. B. 762
- 59-139 Evaluation of flame design for weed control in cotton—Carter, L. M., Colwick, R. F., and Tavernetti, J. R. 618
- 59-141 Herbicide application methods and equipment used in cotton — Thomas, C. H., and Porter, W. K., Jr. 762
- 59-200 The effect of glass fiber covering on silting and rate of discharge from tile drains—Overholt, Virgil 416
- 59-202 Underground sprinkler systems — Ewing, King 763
- 59-203 Effects of surface loads on plastic-lined mole drains—Manley, Philip L. 763
- 59-204 Characterizing irrigation water use by means of efficiency concepts — Willardson, Lyman 763
- 59-205 Evaluating flood damage reductions from proposed works of improvement—Erichsen, Frank P. 569
- 59-207 Detecting deeply penetrating rainwater with a neutron scattering moisture meter—Nixon, Paul R., and Lawless, G. Paul 763
- 59-210 Erosion characteristics of rainfall as measured by soil pans — Free, George R., and Manley, Philip L. 763
- 59-211 Beach erosion control techniques — Watts, G. M. 763
- 59-300 Farm load studies in New York area — Lloyd, Morris H. 763
- 59-301 Demand studies on electric house heating, air conditioners, and crop driers — Altman, L. B., and Charity, L. F. 416
- 59-306 Electronic flowmeters for measuring liquid flow in milk pipelines — Brown, R. H. 618
- 59-309 Quality control of hay—Oliver, James H. 763
- 59-312 Effect on relative humidity when drying air is heated by combustible fuels — Petersen, G. M. 568
- 59-313 An instrument for measuring the smut content of wheat — Birth, Gerald S. 763
- 59-315 Parallel thermocouple circuits and their application to agricultural engineering temperature measurement problems — Bowen, Henry D. 763
- 59-317 A peanut sheller for grading samples: An application of statistics in design and testing — Dickens, James W., and Mason, D. D. 763
- 59-402 Influence of milk code requirements on planning farm dairy buildings — Eby, Harry 763
- 59-405 Problems in collecting and processing livestock manures — Hart, S. A. 416
- 59-408 Let's re-examine our rural waste disposal recommendations — Amundson, George 763
- 59-409 The development of a packaged poultry house—Esmay, Merle L. 763
- 59-414 An evaluation of truss design and sidewall anchorage — Barr, Harold T. 618
- 59-415 A new analysis of batch grain dryer performance — Nelson, G. L. 568
- 59-416 Moisture effect on granular friction of small grain—Lorenzen, Robert T. 763
- 59-504 Prescribed burning as a tool of forest management in New Jersey — Bamford, G. T. 416
- 59-505 Basic nature of soil — Simonson, Roy 763
- PC 59-1 Weeds — a problem for the agricultural engineer — Armer, Austin A. 345
- PC 59-7 Hay pelleting from the manufacturer's point of view — Richey, C. B. 345
- PC 59-8 Aircraft for agriculture—past, present and future — Sanders, George S. 345
- PC 59-11 Soil moisture for irrigation — a new approach for describing — Merriam, John L. 345
